WHAT WE DO

Whatever your challenge, we have the solution. With years of experience in technology consulting and IT services, we stand ready to tackle your biggest ambitions and boldest goals.

We enable companies to enter new markets, transform their current IT investments, and transition smoothly to new technology systems.

- a. **Custom Software Development** - We are best known for developing bespoke solutions for clients and delivering professional web designs in Kenya. For us, software development is not just about writing thousand lines of code, but to come up with the concept that drives maximum business value.

We recommend the best business management application to suit your organization, and seamlessly integrate the solution with ongoing support.

- b. **Network, Storage & Virtualization** - Zurihub Technologies delivers scalable storage solutions that enable you to store, protect, optimize, and leverage your business information. Virtualization allows you to run multiple operating systems and applications on a smaller number of physical servers therefore reducing IT costs, boosting efficiencies and simplifying your ICT infrastructure.
- c. **Graphics & Branding** - Your brand identity will, after all, encapsulate the intangible equity of your business.

In order to give some method to the madness, we have developed a custom process that takes our client through specific steps for identifying the intended brand positioning and desired brand personality.

At Zurihub Technologies, we focus on creating stunning and soulful Brand Identities and logos that have a purpose and leave a lasting impression through every interaction.

- d. **Call Center & Help Desk Solution** - For call center and customer service inquiries, we provide a custom solution that enables organizations receive direct client feedback and immediately reply to the issues raised from a desktop interface at the customer care center. Get an omnichannel contact center software to manage all inbound and outbound operations with ease.

We help you to streamline your customer support for a delightful experience.

- e. **Networking & Structured Cabling** – At Zurihub, we specialize in setting up modern structured cabling systems for commercial use.

We help companies Assess, Design, Implement, and manage their network infrastructure, including LANs & WANs. We assist companies in the installation of a wide range of network equipment, including Servers, IP PABX, PBX, CCTV Cameras and Biometric devices.

- f. **IT Consultancy & Training** - You have that brilliant idea but not sure where to start? We offer IT consultancy services in Kenya by helping you develop the right user and technology requirements (SRS) for your solution.

Zurihub Technologies utilizes a best-practice consulting framework to introduce a standardized approach to all technical aspects of your business, focusing on software development and operations.

OUR TEAM

The ZuriHub team consists of a unique combination of experienced staff with senior operational, project management, and IT experience. We invest in people who can see the future and who work hard to achieve it.

We are proud to have highly-qualified staff members who embody our values of Professionalism, Friendliness, Competency, and Trust-worthiness.
